Rotating cleaning nozzle “PicoWhirly”
Series 500.234

The PicoWhirly works with rotating solid jets and is also suitable for cleaning at very high temperatures. This rotating cleaning nozzle with kolsterized slide bearing is made entirely from stainless steel and can also be used in very small spaces, thanks to its extremely compact construction.

### Material
AISI 316L SS

### Max. temperature
400°F/200°C

### Recommended operating pressure
40 psi

### Installation
Operates in every direction

### Filtration
Line strainer with a mesh size of 0.3 mm/50 mesh

### Bearing
Kolsterized Sleeve bearing

### Information on operation

- Operation with compressed air or steam purge only for short-term usage. Operation above the recommended operating pressure means higher wear and smaller droplets. This might have adverse effects on the cleaning result.

The maximum tank diameter shown above applies for the recommended operating pressure and is indicative only. The cleaning result is also affected by the type of soiling.
