

Special cleaning nozzles Flushing Nozzle Assembly Series 597

Series 597

The flushing nozzle assembly was designed especially for the brewing industry for cleaning the plate screen in lauter tun tanks. A full cone nozzle inserted at the bottom delivers excellent spray coverage and the flat fan jets provide powerful impact for cleaning.

Materials
304 SS, PTFE

Max. temperature
194°F/ 90°C

Recommended operating pressure
45 psi

Installation
Vertically facing upward

Filtration
Line strainer with a mesh size of 0.3 mm/50 mesh

Uses full cone nozzle series
490.568.1Y.BA

Ordering no.		Flow Rate (Gallons Per Minute)

Information on operation

- Operation with compressed air purge only for short-term usage. Operation above the recommended operating pressure means higher wear and smaller droplets. This might have adverse effects on the cleaning result.
